- Making authoritative recommendations on expenditures for own area.
- Developing and submits department budgets for approval.
- Providing input into the overall portfolio strategy.
- May provide input into elements of strategic CNL plans based on own expertise.
- Translating the portfolio's strategy into tactical plans for the department.

#### What we are looking for:

- A University Bachelor's Degree in Business Management, Commerce, Law and/or Economics.
- PMAC, SCMAO, PMP or equivalent are considered assets.
- 10+ years of progressively experience in contracting, procurement and supply chain management, or equivalent combination of education and experience in a senior or lead contracting/negotiating capacity.
- Significant experience in, Contracting lifecycles, in EPC, Design & Build, Design-Bid-Build and formation of complex, \$multi million capital projects or programs
- Significant experience with multiple pricing models
- Developing collaborative long term strategic agreements and relationships
- Management of high value procurements and acquisitions in complex services, construction, Technology or process based industry
- Strategic and critical thinking to analyze different contracting options and also to resolve complex problems
- Demonstration of managing and working within high performing integrated program or project teams.

- Working in a Nuclear or Regulated environment is preferential.
- Excellent communications and interpersonal skills, along with the proven ability to mediate and negotiate well.
- excellent business judgement and savvy with a proven ability to make decisions under pressure that are of high consequence to risk, performance, and budget.
- Demonstrated management skills and experience including resource management, budgeting, planning and reporting, team building and relationship management.
- Strong business ethics and process orientation
- Extensive knowledge and understanding of commercial contracts, agreements and terms and conditions, competitive bidding laws of Canada, and Contract Law. Understanding of the Legal system, and how contracts are executed and issues resolved.

**Security clearance eligibility required:** Reliability Status with Site Access Security Clearance (SASC), which has a minimum requirement of 3 years of verifiable history in Canada, Australia, New Zealand, United States and/or the United Kingdom.

### Why CNL?

Does working with a team across Canada to advance nuclear science and technology for a clean and secure world speak to you? We're reinventing ourselves to be the pace setters so we can lead the charge in solving the problems that matter, like building the next generation of clean nuclear and hydrogen energy solutions, developing new and better-targeted cancer treatments, and continuing to lead the world in environmental remediation.

- Work-life balance is an integral part of our overall health and well-being; at CNL, we value this.

We offer a complete total rewards package :

- paid time off (vacation, sick, floater & personal);
- benefits effective day one, that's right, no waiting period;
- tuition support
- and a pension!

Do Our Priorities Resonate with You?

- Clean energy for today and tomorrow.
- Restore and protect the Environment.
- Contribute to the health of Canadians.

### Location of Work - Remote

- This role is based out of CNL's Chalk River site, however, subject to the terms of this agreement, the primary work location will be remote. The role may require some attendance at the Chalk River site. The schedule and frequency will be determined by discussions with the manager as well as internal client and project needs. CNL may require travel from time to time, as necessary.

CNL is committed to providing an atmosphere free from barriers that promote equity, diversity and inclusion in achieving our mission. CNL welcomes and celebrates employees, stakeholders and partners of all racial, cultural, and ethnic identities.

CNL also supports a workplace environment and a corporate culture built on our Core Values: Respect, Teamwork, Accountability, Safety, Integrity and Excellence, which encourage equitable employment practices and career prospects inclusive of accommodations for all employees.

CNL is committed to being an equal-opportunity employer. If you require accommodation measures during any phase of the hiring process, please inform the Talent Acquisition Specialist with whom you are in contact. All information received in relation to accommodation requests will be kept confidential.

The Chalk River Laboratories site is located on the unceded and unsurrendered territory of the Algonquin Anishinaabe people. As an organization, CNL recognizes and appreciates their historic connection to this place. CNL also recognizes the contributions that First Nations, Métis, Inuit and other Indigenous Peoples have made, both in shaping and strengthening this community in particular, and this province and country as a whole.
